

align front of class unit

Assembly instructions.

You have received:

1 x Front of Class Unit Top

1 x Front of Class Unit Base

2 x Front of Class Unit Sides

36 x Screws SQ2

You will need:

SQ2 Screwdriver

Step 1

Use two people to lift the Front of Class Wall Unit Base to its final location. We recommend the unit is placed against a wall for safety reasons.

Step 2

Use two people to lift the Front of Class Wall Unit onto the Base, ensuring the sides and back of the Base and Top are flush.

Step 3

Fasten the Top to the Base by inserting and tightening the provided screws into the pre-drilled holes in the underside of the Base Unit rails.

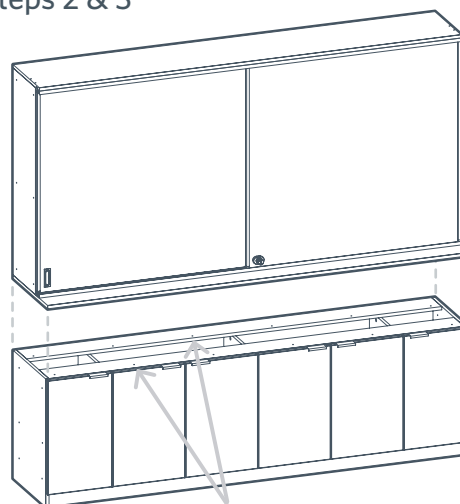

Step 4

Fasten the end panels to the sides of the Base Unit and Top Unit using the pre-drilled holes in the sides of each unit.

Step 5

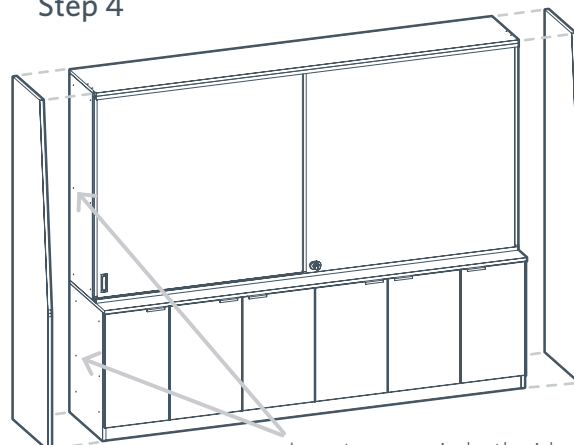

We recommend you secure the Front of Class Unit to the wall, refer to the instruction sticker on the reverse of the unit.

Steps 2 & 3

Insert screws in front and back rails

Step 4

Insert screws in both sides of top and base units
